MAP A, page 10

Introduction:

Fairview Memorial Gardens was opened in 1958. The cemetery is the largest in Henry County and, for the most part, graves are marked with bronze plaques. However, there are specified sections that allow for almost any kind of marker a family may wish. This includes a large mausoleum. The cemetery is divided into a number of descriptive sections which are identified by name and grid number on the map accompanying this survey. Fairview encircles Bethel United Methodist Church cemetery. This is an active public cemetery.

The following list provides the arbitrary grid numbers and the names of the various areas of the cemetery where graves may be located:
